Multi-Use-Case Opt-In: Three Independent Consent Checkboxes

AWS 10DLC Compliance — Account Notifications, Fraud & Security Alerts, and Promotional Offers each have their own opt-in

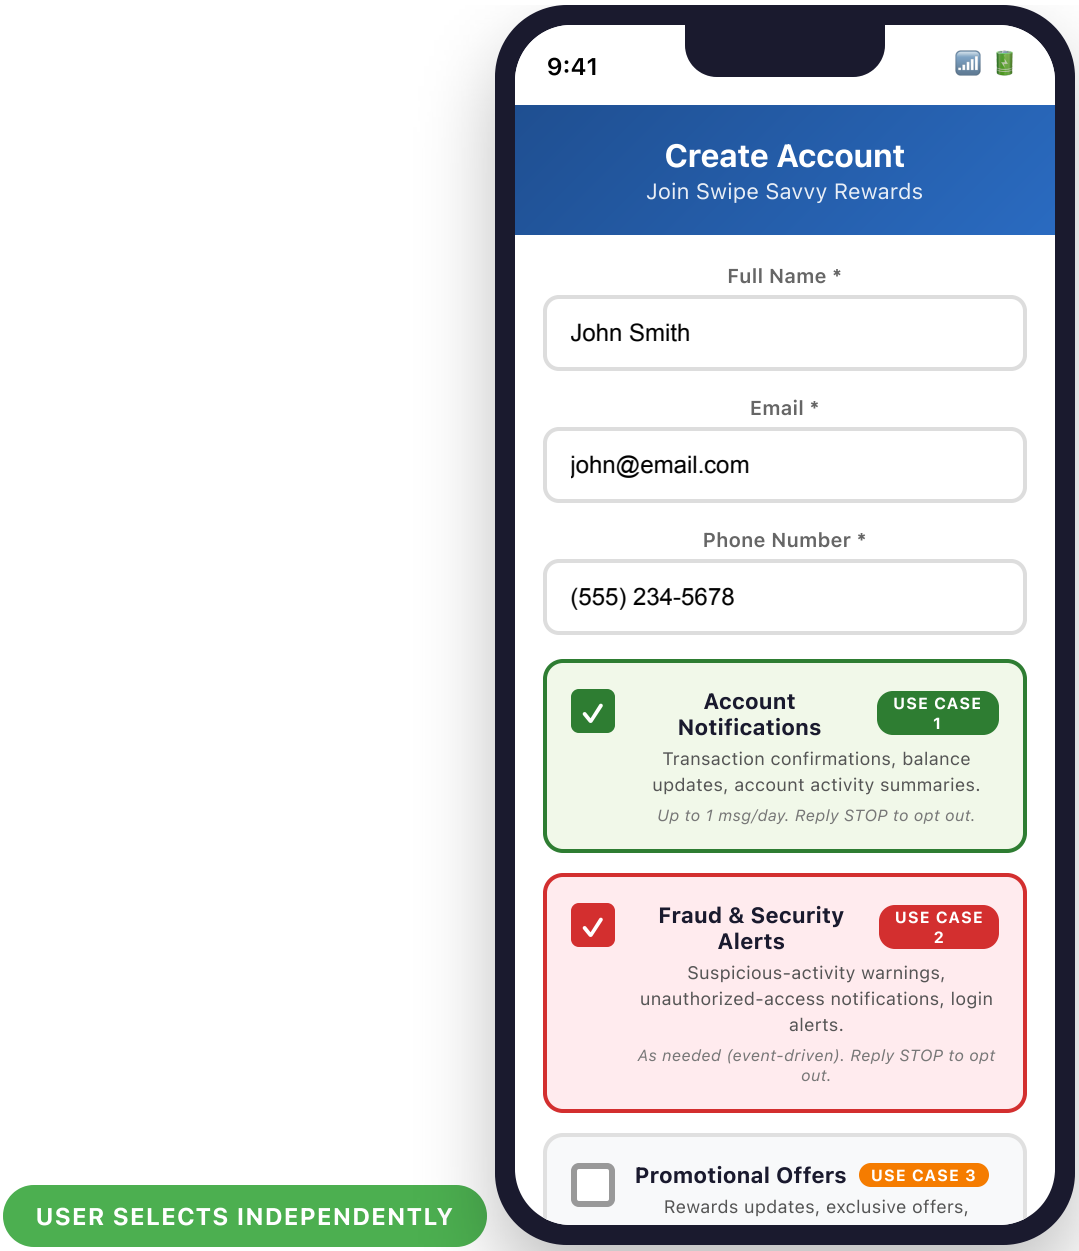

⚠️ **CRITICAL: Each use case has its own UNCHECKED checkbox. Users must actively opt in to each one independently. Fraud alerts are NOT bundled with account or marketing messages.**

1 Multi-Use-Case Consent Workflow

Three independent opt-ins — each maps to a separately-registered SMS use case

DEFAULT: ALL BOXES UNCHECKED

USER SELECTS INDEPENDENTLY

Account Notifications

> Swipe Savvy: Your purchase of $24.50 at Joe's Diner was approved. New balance: $312.40. Reply STOP to opt out, HELP for help.

Use case: Account / transactional
Frequency: Up to 1 msg/day
Triggered by: Account activity events

Fraud & Security Alerts

> Swipe Savvy Security: We detected an unusual sign-in from a new device. If this was not you, reply NO or call 1-800-505-8769. Reply STOP to opt out, HELP for help.

Use case: Fraud / security
Frequency: Event-driven (as needed)
Triggered by: Suspicious activity, new-device sign-in, password change

Promotional Offers

> Swipe Savvy: Earn 2x rewards points on coffee purchases this week at participating locations! Reply STOP to opt out, HELP for help.

Use case: Marketing / promotional
Frequency: Up to 4 msgs/month
Triggered by: Promotional campaigns

✓ Multi-Use-Case Compliance Verification

- ✓ **Three Separate Use Cases:** Account, Fraud, and Promotional are registered as independent campaigns
- ✓ **All UNCHECKED by Default:** No box is pre-selected; user must actively opt in to each
- ✓ **Independent Toggles:** User can opt in to fraud alerts only, or marketing only, or any combination
- ✓ **Per-Category STOP:** Replying STOP unsubscribes from the category that sent the last message
- ✓ **Frequency Disclosed Per Category:** Each consent block lists its own message frequency
- ✓ **Consent Not Required for Purchase:** Clearly stated; rewards membership works without SMS
